2026 TARGET PRICING

To help keep target prices as affordable as possible,
we're asking for your support.

In 2025, many shooters stepped up to assist with trap loading, scoring, and clean-up — and it made a big difference.

In 2026, we're building on that momentum by asking volunteers to help manage traps 1 through 8.

Why?

We did the analysis and found that to hire and pay help to efficiently run 8 traps, our target prices would need to *increase by*

\$9 PER 100 TARGETS.

This is significant.

To keep our target prices affordable,

WE NEED YOUR HELP!

Please sign up for a trap when you register,
or in advance at

shootnotsc@gmail.com

THANK YOU!

THE UNOFFICIAL RULES OF TRAP SHOOTING

— From the Trap King —

-  Winning feels good. Tacos feel better.
-  The wind is responsible for at least 60% of all missed targets.
-  The shooter beside you always gets the easier targets.
-  A brand-new shotgun guarantees better scores... for about two rounds.
-  If you break the first 24, the 25th target becomes the size of a mosquito.
-  There's a Miller on every squad.
-  Never tell your wife how much you spend on shotguns.
-  The louder someone talks about their last score, the worse they shoot today.
-  Never trust a target you didn't call for (or a fart).
